Birds of Minnesota State Parks

Birds of Minnesota State Parks is the culmination of a decades-long effort by the Minnesota Department of Natural Resources in collaboration with author Robert B. Janssen, Carrol Henderson of the DNR's Nongame Wildlife Program, and many of the state's outstanding birders. It is truly a labor of love, with hundreds of color photographs and the kind of information only a life-long birder and lover of the parks can provide. Each of Minnesota's 75 state parks is represented by a birding-oriented description, a page of recommended places to visit, and a map. The parks are a haven for birds, often providing the only suitable habitat for a species in the surrounding region. More than 300 of the regularly occurring bird species in Minnesota have been observed in the state parks. If you want to see birds in Minnesota visit the state parks and take a copy of *Birds of Minnesota State Parks* with you. Soft cover, 232 pages.

Stock No. 14339 \$19.95

Connected to Our Roots

Department of Natural Resources, 2010

Published by the Department of Natural Resources Division of Forestry, this book charts the history of Minnesota forestry through text and more than 200 historical photos, charts and illustrations. Features four sections: Pre-1911, 1911-1930, 1931-1970 and 1971 - present. Softcover, 104 pages.

Stock No: 13924 \$10.95

Field Guide to the Freshwater Mussels of Minnesota

Department of Natural Resources, 2003

Contains photographs, shell descriptions, habitat associations, and distribution maps. Also contains general information about mussels, their importance in the ecosystem, threats to their survival, collection methods, and collection regulations. Spiral-bound, 144 pages.

Stock No. 344 \$9.95

Field Guides to Native Plant Communities of Minnesota

Department of Natural Resources

This three-volume set of statewide field guides organized by Minnesota's ecological provinces is intended to promote better understanding of the patterns and processes that characterize and influence Minnesota's vegetation. The guides contain keys to the identification of native plant communities in Minnesota and fact sheets with information on community composition and structure, landscape setting, soils, and natural history. Summaries of ecological systems highlight the ecological processes that shape the terrestrial and palustrine vegetation of the state. Contains maps, fact sheets, descriptions, and tables for identifying native plant communities.

Laurentian Mixed Forest Province (Northeast Minn), 2003
Spiral-bound, 352 pages. **Stock No. 342 \$10.95**

Eastern Broadleaf Forest Province, 2005
Spiral-bound, 394 pages. **Stock No. 268 \$10.95**

Prairie Parkland & Tallgrass Aspen Parklands Province, 2005
Spiral-bound, 362 pages. **Stock No. 272 \$10.95**

Geology on Display: Geology and Scenery of Minnesota's North Shore State Parks

Department of Natural Resources, 2005

Presents the fascinating geological events that produced the rocky, rugged and dramatic landscape. Discusses the continent-scale rifting and volcanism 1.1 billion years ago and the Great Ice Age. The geology of each of the nine state parks on the North Shore of Lake Superior is described with diagrams, geological maps and color photos to guide park explorers visiting the area. Spiral bound, 70 pages.

Stock No. 292 \$19.95

Guide to Minnesota Scientific & Natural Areas

Department of Natural Resources, 1999

This guide is organized around 4 major sections of the Minnesota landscape: Aspen Parkland, Prairie Grasslands, Deciduous Woods, and Coniferous Forests. It describes the environmental heritage of an area, then introduces specific scientific & natural areas (SNAs) that preserve representative examples. Each site listing features a map and a description of geological formations, landscape types, and selected key plant and animal types. Includes township/range/section listing, total number of acres and how to access the site. Spiral-bound, 194 pages.

Stock No. 269 \$14.95

Guide to Minnesota Scientific & Natural Areas Map

Department of Natural Resources, 1999

Companion color map charts 129 Minnesota scientific and natural areas including prairie grassland, deciduous woods, and coniferous forest. Unfolds to 20" x 23". Included free with purchase of Stock No. 269.

Stock No. 321 \$2.50

Healthy Rivers: A Water Course

Department of Natural Resources, 2004

Explains natural structure and function of river systems using a five-component framework of flow, shape, connections, quality, and life. Six case studies examine the history of river use and provide a basis for a future vision of water resource management.

Stock No. 347 \$19.95 *Note: CDs are Non-Returnable.*

Lakescaping for Wildlife & Water Quality

Department of Natural Resources, 1999

Learn how to landscape your shoreline property to prevent shoreline erosion and restore wildlife habitat, wildflowers, and clean water. This book will show you the way to design your area for increased enjoyment of your lakeside or river getaway. Spiral-bound, 176 pages.

Stock No. 310 \$19.95

Landscaping for Wildlife

Department of Natural Resources, 1994

Packed with color photos and diagrams, this guide shows how to attract wildlife using inexpensive, easy-to-follow landscaping plans. Attract everything from butterflies to deer, cardinals to wood duck. Spiral-bound, 150 pages.

Stock No. 276 \$10.95

Minnesota State Park Vehicle Permit

Department of Natural Resources

One of these handsome stickers on your vehicle is all you need to gain access to Minnesota state parks for a full year! Park stickers are valid for 12 months, regardless of which month they are purchased. Call for second-car or handicapped accessibility stickers.

Stock No. 1243 \$25.00

Minnesota State Park Motorcycle Permit

Stock No. 1246 \$20.00

Puzzles and Mazes and Games, Oh My

Department of Natural Resources, 1992

Fun-packed coloring and activity book about Minnesota wildlife. Perfect for young grade-schoolers. Soft cover, 48 pages.

Stock No. 265 \$0.99

Reconnecting Rivers: Natural Channel Design in Dam Removal & Fish Passage

Department of Natural Resources, 2010

This book first identifies 14 dam problems: Structural Integrity and Dam Failure; Reservoir Sedimentation; Channel Degradation; River Delta Effects; Hydraulic Undertows; Socioeconomic & Cultural Effects; Inundation of Critical Habitat; Flow Regulation; Water Quality Effects; Invasive Alien Species; Propagation of Parasites; Gas Supersaturation; Hydropower Effect and Blockage of Fish Migration. The book also includes information on river restoration philosophy, natural channel design in river restoration, dam removal techniques including two case examples (Sandstone Dam - simple removal with no restoration and Appleton Milldam - dam removal with river restoration), a chapter on nature-like fishways including design approach and six case examples, a discussion. Spiral bound, 196 pages.

Stock No. 13866 \$25.95

Restore Your Shore

Department of Natural Resources, 2002

A companion to *Lakescaping for Wildlife*, this multimedia CD-ROM shows how to protect a natural shoreline or restore a degraded shore with a natural buffer. Program features will enable you to develop a deeper understanding of shoreland management and walk you through the transformation of four shoreland projects. Discover innovative solutions to common problems. Choose from more than 400 native plants on a searchable database.

Stock No. 328 \$15.00 Note: CDs are Non-Returnable

Trail Planning, Design & Development Guidelines

Department of Natural Resources, 2006

Covers all you need to know about building trails in the American midwest. Includes extensive diagrams, photos and detailed information that will help your organization, city, county or non-profit agency make and maintain trails of all kinds. Spiral-bound, 306 pages.

Stock No. 323 \$19.95

Traveler's Guide to Wildlife

Department of Natural Resources, 1997

Easy-to-use guide covers 120 Minnesota sites where you can see, enjoy and photograph a wide variety of wildlife in all four seasons. Find great spots for viewing everything from trumpeter swans to grouse, moose to frogs, blue herons to fox, birds, and more. 220 color photos. Spiral-bound, 320 pages.

Stock No. 298 \$9.95

Trees and Shrubs of Minnesota: Complete Guide to Species Identification

University of Minnesota Press, 2008

Authoritative, up-to-date and packed with information. This new book from the Minnesota Department of Natural Resources features comprehensive coverage of all native and naturalized trees, shrubs and woody vines in Minnesota; color photos of fruit, flowers, bark, and leaves of every species for easy identification; and vivid, accurate descriptions of each species' habitat, natural history and ecology. Hard cover, 703 pages.

Stock No: 239 \$59.95

Trees of Minnesota

Department of Natural Resources, 1998

Small size allows you to tuck it into a shirt pocket and flip through 52 Minnesota trees. Each tree is identified by form, bark, leaf, fruit, range, and wood. There is a handy ruler that folds out from the back cover, making it easy to check leaf size. Spiral-bound, 59 pages.

Stock No. 262 \$5.95

Turtles & Turtle Watching for the North Central States

Department of Natural Resources, 2004

Features information on 13 species of turtles found in the North Central States as well as information on locations for watching, stalking turtles, turtle-watching tools, and conservation. Includes color photographs and a reference section. Spiral-bound, 57 pages.

Stock No. 346 \$9.95

The Use and Conservation of Minnesota Wildlife: 1850-1900

Department of Natural Resources, 2007

In 1940 Evadene Burris Swanson earned her doctorate in history at the University of Minnesota. Her dissertation, published now for the first time in book form, offers a vivid look at how the abundant wildlife of the frontier nurtured and sustained the American Indians and the settlers from the east. Softcover, 224 pages.

Stock No. 363 \$14.95

Wild About Birds

Department of Natural Resources, 1995

Feed the birds with this excellent guide designed to increase the number of species using your feeder. This book includes workshop basics for construction of 26 different feeders and tips on 44 types of food. More than 425 color photos. Spiral-bound, 288 pages.

Stock No. 285 \$19.95

Purchase one copy of *Wild About Birds*, *Woodworking for Wildlife*, *Landscaping for Wildlife* and save!

Stock No. 286 \$42.95

Wildlife Rehabilitation Study Guide

Department of Natural Resources, 2007

Prepares a student to take one of three rehabilitation permit tests: novice, general, and master. A written examination and a facilities examination and permit requirements. The Guide is useful for anyone engaged in rehabilitation of wild animals after receiving permits. Included in the price is an examination booklet, which includes information not found in the Guide with value as a learning tool. Spiral-bound, 447 pages.

Stock No. 313 \$50.00

Woodworking for Wildlife

Department of Natural Resources, 2009

Along with designs for 28 different nest box projects, this newly-expanded edition includes 300 color photographs and information on deterring nest predators, placing and maintaining boxes, and setting up remote cameras in nest boxes. The 164-page book, which has a Softcover that opens flat for easy use, features new designs for great crested flycatchers, mergansers, dippers, bumblebees and toads. Softcover, 164 pages.

Stock No. 275 \$19.95

Lake Depth Maps

In partnership with the Department of Natural Resources, Minnesota's Bookstore also sells more than 5,000 contour lake maps mapped by the DNR since the 1930s -- maps are designed to provide basic information for scientific fish and wildlife management when used with biological, physical, and chemical survey data. They are not intended to be used as a navigational aid, and not all hazards are mapped.

Call for more information about these maps or check the information on our web site.

For a free copy of the current catalog, call or visit www.minnesotasbookstore.com, select the "Catalogs" button and open the "Maps Catalog" section of the web site.
