

New Building Codes now adopted

2015 Minnesota Accessibility Code

International Code Council, 2015

Provides standards for the design and construction of buildings to be accessible for all persons. Contains detailed scoping requirements from **International Building Code** Chapter 11 and detailed technical provisions from **ICC/ANSI A117.1-2009** to ensure that buildings and facilities are designed and constructed to be accessible. Is in **Minnesota Rules** Chapter 1341. The rule adopts by reference Chapter 11 of the **2012 International Building Code (IBC)**, **ICC/ANSI A117.1-2009**, and Minnesota amendments. The **2015 Minnesota Accessibility Code** is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter about Administration. There is no longer a need to separately purchase the ICC model codes and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book. The Minnesota Accessibility Code took effect January 24, 2015. Soft cover, 158 pages.

Stock No. 14345 \$53.00

2015 Minnesota Conservation Code for Existing Buildings

International Code Council, 2015

Regulates the design, alteration, repair, addition, change of occupancy and relocation of existing buildings and structures, including historic buildings. This code does not apply to buildings or structures regulated by the **2015 Minnesota Residential Code**. Contains regulations for building conservation using both prescriptive and performance-based provisions with emphasis on performance. These regulations may often be less restrictive than the **International Building Code**, making building conservation and reuse of existing buildings more cost effective while maintaining building safety. Is in **Minnesota Rules** Chapter 1311. The rule adopts by reference Chapters 2 through 16 of the **2012 International Existing Building Code (IEBC)** and includes amendments to the IEBC. The **2015 Minnesota Conservation Code for Existing Buildings** is a custom code book published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter about Administration. There is no longer a need to separately purchase the ICC model code and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book. The Conservation Code for Existing Buildings took effect January 24, 2015. Soft cover, 228 pages.

Stock No. 14343 \$75.00

2015 Minnesota Building Code

International Code Council, 2015

Regulates the design, construction, addition, alteration, repair, use and location of all buildings and structures other than those regulated by the **2015 Minnesota Residential Code**. Contains detailed provisions governing building construction. These include requirements for structural, means of egress, sanitation, life-safety, fire-safety, and moisture protection. Is in **Minnesota Rules** Chapter 1305. The rule adopts by reference Chapters 2 through 33 and 35 of the **2012 International Building Code (IBC)** and includes amendments to the IBC. The **2015 Minnesota Building Code** is a custom code book published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes Minnesota chapters about administration, radon and elevators. There is no longer a need to separately purchase the ICC model code and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book. The Radon Code took effect February 14, 2015. The Minnesota Building Code took effect June 2, 2015. Soft cover, 656 pages.

Stock No. 14340 \$139.00

2015 Minnesota Residential Code

International Code Council, 2015

Regulates the design, construction, addition, alteration, repair, use, and location of detached one- and two-family dwellings, certain townhouses and their accessory structures. Contains detailed provisions governing dwelling construction including requirements for structural, life-safety, fire-safety and moisture protection. Is in **Minnesota Rules** Chapter 1309. The rule adopts by reference Chapters 2 through 10, 44, Section P2904 and Appendix K from the **2012 International Residential Code (IRC)** as amended in Minnesota. The **2015 Minnesota Residential Code** is a custom code book published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes Minnesota chapters about Administration, Radon and Energy. There is no longer a need to separately purchase the ICC model code and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book. The Residential Code took effect January 24, 2015. Radon and energy codes took effect February 14, 2015. Soft cover, 570 pages.

2015 Minnesota Mechanical and Fuel Gas Codes

International Code Council, 2015

Regulates the design, installation, maintenance, alteration and inspection of building mechanical systems that are used to provide control of environmental conditions and related processes. Contains detailed provisions governing mechanical and fuel gas systems using prescriptive and performance-based provisions with emphasis on performance. Is in **Minnesota Rules** Chapter 1346. The rule adopts by reference Chapters 2 through 15 of the **International Mechanical Code**, Chapters 2 through 8 of the **International Fuel Gas Code** (including amendments to both) and **ANSI/ASHRAE Standard 154-2011, Ventilation for Commercial Cooking Operations**.

The **2015 Minnesota Mechanical and Fuel Gas Code** is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter about Administration. There is no longer a need to separately purchase the ICC model codes and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book. The Minnesota Mechanical and Fuel Gas Code took effect January 24, 2015.

Soft cover, 170 pages.

Stock No. 14346 \$115.00

2015 Minnesota Energy Code

International Code Council, 2015

The IECC includes requirements for both residential and commercial buildings. It provides energy-conserving standards for the design, construction, alteration, renovation and repair of residential and commercial buildings. It contains design and construction standards regarding heat loss control, illumination, and climate control. It includes both **Minnesota Rules** Chapters 1322 and 1323, as well as Minnesota Rule 1300 on the administration of the State building code. The rules adopt by reference, Chapters 2(RE) through 5(RE) for residential buildings, and chapters 2(CE) through 5(CE) for commercial buildings, the **2012 International Energy Conservation Code** (IECC), with Minnesota Amendments. This document also includes for Minnesota commercial buildings the optional standard, ASHRAE Standard 90.1-2010. The **2015 Minnesota Energy Code** is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. There is no longer a need to separately purchase the ICC model code and Minnesota amendments and refer to them both. Now they are contained a single reformatted Minnesota-specific code book. The Residential Energy Code was effective February 14, 2015 and the Commercial was effective June 2, 2015.

Soft cover, 221 pages.

Understanding Amendments to the Minnesota State Building Code

International Code Council, 2015

A compilation of the rule-by-rule analysis portion of the Statement of Need and Reasonableness (SONAR) of 10 Rule Chapters adopted as part of the **State Building Code** in 2015 & 2016. They are presented in a single publication to assist the user by providing both a brief technical explanation as well as an understanding of the purpose behind each of the amendments made to these 10 chapters. In some cases, explanation is provided for changes made as a result of comments received during a public hearing or the public comment period. The user should be aware that this document does not contain an explanation of all the amendments to the **State Building Code** but only those that were introduced as new or modified for 2015. An explanation of legacy amendments is not included in this book. Soft cover, 170 pages.

Stock No. 14404 \$20.00

International Building Code (IBC)

International Building Code 2012

International Code Council, 2012

Covers all buildings except 3-story one- and two-family dwellings. This comprehensive code features concepts, structural, and fire and life safety provisions covering means of egress, interior finish requirements, comprehensive roof provisions, seismic engineering provisions, construction technology, occupancy classifications, and the latest industry standards in material design.

Boiler license study material

Low Pressure Boilers

American Technical Publishers, 2013

The fourth edition provides information on the safe and efficient operation of low pressure steam boilers and related equipment, hot water boilers, and cooling systems. The textbook can be used as a study guide for boiler operator licensing, an introduction to stationary engineering, or a reference book for upgrading skills. This new edition has been enhanced with updated coverage of the new ASME symbol stamps, integrated boiler controls, code requirements for bottom blowdown, feedwater regulators, emissions regulations and New Source Performance Standards, variable-speed drives, diaphragm draft gauges, water treatment programs and solubilizing water treatments, and Canadian licensing. Energy efficiency and environmental issues are emphasized throughout.

Hard cover, 406 pages.

Stock No. 13812 \$95.00

Low Pressure Boiler Study Guide

American Technical Publishers, 2013

Designed to reinforce information presented in **Low Pressure Boilers** (Stock No. 13812). The textbook is used as a reference to complete the learning activities in the study guide.

Soft cover, 140 pages.

Stock No. 13813 \$29.00

Safe Boiler Operations

American Technical Publishers, 2013

Special Engineer's Guide for the State of Minnesota is an introductory textbook on safe boiler operation. The textbook is specifically targeted at the Special Operator's license in Minnesota. It can also be used for licensing exam preparation for introductory boiler operator's licenses in other locations.

Soft cover, 214 pages with 144 illustrations.

Stock No. 397 \$104.00

National Electrical Code Handbook 2014

National Fire Protection Association, 2014

Safe, efficient, code-compliant electrical installations are made simple with the latest publication of this widely popular resource. Like its highly successful previous editions, the **National Electrical Code 2014 Handbook** combines solid, thorough, research-based content with the tools you need to build an in-depth understanding of the most important topics. It provides the full text of the updated code regulations alongside expert commentary from code specialists, offering code rationale, clarifications for new and updated rules, and practical, real-world advice on how to apply the code.

Hard cover, 1497 pages.
