Fire Starters

River Valley Industries, DHS St. Peter Regional Treatment Center
Start a roaring fire in minutes without dangerous liquids. Manufactured by residents of the Department of Human Services St. Peter Regional Treatment Center, Fire Starters use a combination of wax and wood shavings that is safe and easy to use. They can't flash or explode and there is no chemical odor. They will burn for about 20 minutes. Fire Starters come in three sizes: a large bucket holds 60; the box contains 30; and the package an even dozen.

New from the Department of Natural Resources!!!

Birds of Minnesota State Parks

Birds of Minnesota State Parks is the culmination of a decades-long effort by the Minnesota Department of Natural Resources in collaboration with author Robert B. Janssen, Carrol Henderson of the DNR's Nongame Wildlife Program, and many of the state's outstanding birders. It is truly a labor of love, with hundreds of color photographs and the kind of information only a life-long birder and lover of the parks can provide.

Each of Minnesota's 75 state parks is represented by a birding-oriented description, a page of recommended places to visit, and a map. The parks are a haven for birds, often providing the only suitable habitat for a species in the surrounding region. Over 300 of the regularly occurring bird species in Minnesota have been observed in the state parks.

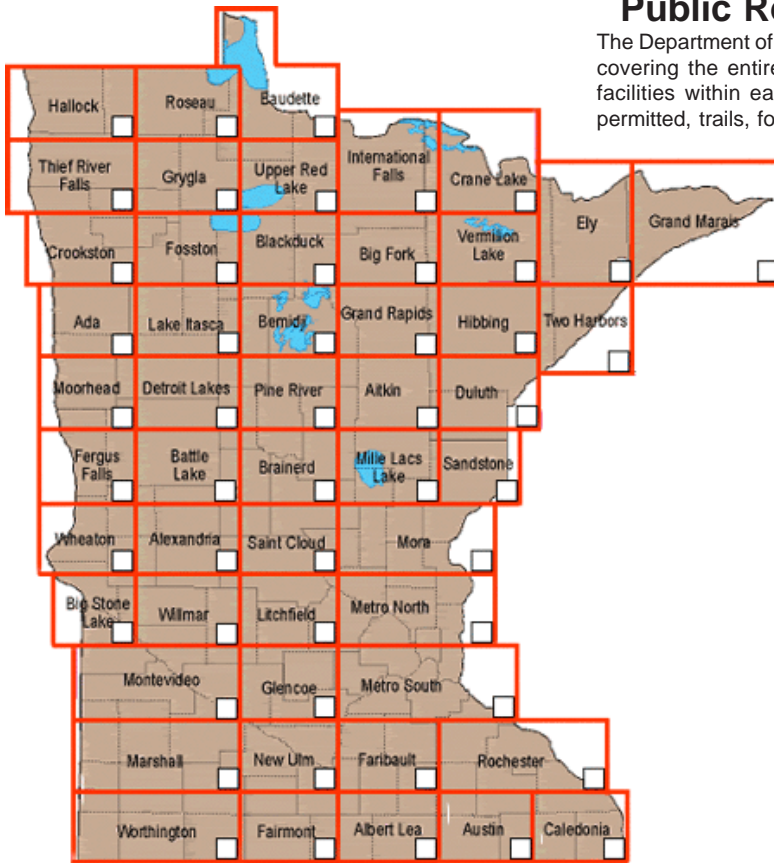

If you want to see birds in Minnesota visit the state parks and take a copy of *Birds of Minnesota State Parks* with you. Soft cover, 232 pages.
